

Applied Computational Electromagnetics Society

December 20, 2022

Subject: ACES Award Recipient

Dear Dr. Wei E. I. Sha,

On behalf of the ACES Board of Directors and personally, I would like to congratulate you on being nominated for the *ACES Technical Achievement Award*, “For pioneering and dedicated contributions to develop electromagnetics-multiphysics models at nanoscale”.

The ACES Technical Achievement Award is bestowed by the BoD upon a person to honor one or more demonstrated original technical contributions in the field of applied computational electromagnetics, supported by publications, patents, and other products such as developed computer codes.

ACES primary objective is devoted to the exchange of information in applied computational electromagnetics, to the advancement of the state of the art, and to the promotion of related technical activities. One of the cornerstones of our success has been our ability to build partnerships, and I welcome your partnership in our efforts to improve in these areas.

Again, I am delighted we can honor you with this award and I am looking forward to seeing you at our annual conference in Monterey, California from March 26-30, 2023 where you will be *recognized* at the *ACES Conference Awards Banquet*. Paper submission is still open until January 2nd, please visit ACES website https://aces-society.org/conference/Monterey_2023/ for more information on the conference as well as the forthcoming preliminary program.

With Best Regards,
